- Secção dedicada à seleção das Regiões a integrar na candidatura

Please select the different regions with which you intend to work.

Include a list of regions and upon selection of a region, a sub-section should be added.

- You will be asked to provide the list of higher education institutions with which you would like to cooperate. This information is mandatory at this stage. However, it will be possible to work with other partners than those in your application as long as they are in the same countries. Information about other organisations than higher education institutions that may participate in your project (as hosts for traineeships or in the frame of staff mobility) is not mandatory but can be helpful to provide a better overview of your project.
- You will then be asked to enter the different outgoing and incoming mobility activities for the region. You will also have to insert the indicative number of mobilities you intend to organise with the countries belonging to the given region.
- You will have to answer two open questions to demonstrate the relevance and the potential impact and dissemination of the project in this specific region. Your answer to each question should refer to your higher education institution and your partners in that region.

According to the [Programme Guide](#) please note that some study cycles (short-, first and second) are restricted for outgoing students towards countries that receive official development assistance. PhD students and staff are eligible for outgoing mobility. The list of the countries with restrictions can be found [here](#) (the Western Balkan countries are exempted from the restriction and can allow all flows and study cycles).

Be aware that the provided answers for each region will be assessed separately.
